Michigan State University

Robin Rennie  
Director, Dow STEM Success Program

Sekhar Chivukula  
Associate Dean, College of Natural Science

Kristen Renn  
Associate Dean of Undergraduate Studies/Director for Student Success Initiatives

The Dow STEM Scholars Program

Abstract:

The Dow STEM Scholars Program provides academic and social support services to incoming MSU students who want to pursue a STEM major and place into Intermediate College Algebra - Math 1825 on the MSU Math Placement Exam. The Dow STEM Scholars Program focuses on assisting students' transition into college and on developing the skills needed to pursue a STEM degree. The program gives students with academic potential the opportunity to surround themselves with a positive group of fellow Spartans who are motivated to earn a STEM degree. In this talk we will describe the origin of the program, accomplishments during the first year, and plans for the future.
